Club Futureproof

24.05.09

Club kids and drag queens made their way over to Thorpe Park for the launch of **CLUB FUTUREPROOF** last Sunday. As the sun shone down in abundance adrenaline junkies were being tossed from side to side on the theme park's many rides. For those who fancied a drink and a touch of shade, there was the dance tent, where DJs included **Alan K, Paul Heron, Steven Geller** and **Tony Junior**, and an all-important bar.

Promoter **Michael Aldridge** later told *Boyz*, 'Our promise was to offer the dance scene something fresh and extraordinary and anyone who came to the event on Sunday will tell you how amazing our dancefloor was. We would have liked more people to have attended but building on the success of this event we will be hosting other Club Futureproof events at unique venues all across London in the coming months.'

And DJ and co-promoter **Steven Geller** added, 'This was such an exciting project to be involved with and can only get bigger and better from here. I'm looking forward to working on many more of these extraordinary events in the future.'
